Model GB4105
TOUCH ACTIVATED GAS BURNER

This portable and completely self-contained compact burner features electronic instant ignition for a fast and reliable startup every time. Simply rest your hand on the touch sensitive pad to instantly ignite the burner. Turn the flame adjustment dial to choose the right flame for the job: a powerful butane blue flame or traditional soft yellow flame. Lift your hand from the pad to extinguish the flame and shut the unit off. The GB4105 also features a handy dual-use locking mechanism that will either lock the flame on for longer jobs, or function as a safety lock preventing accidental ignition.

Item Code 189-4105
 For Industrial, Professional and Retail Sale

Models GB4101, GB4102, GB4103
TABLE-TOP GAS BURNERS

The Blazer Table-Top Gas Burners feature instant ignition, adjustable flame, approximately 1 hour burn time & maximum flame temperatures of 2,370°F. Heavy duty base helps prevent accidental tip over. Fuel Capacity: 35 grams
